	The Chitimacha, the 1,000-member tribe known as "the People of Many Waters," are heirs to an unbroken 8,000-year past. Living off the bounty of Louisiana's Atchafalaya Basin, one of the richest inland estuaries on the continent, this indigenous nation persists and rejuvenates its culture despite gradually losing its ancestral territory to environmental and man-made forces. NATIVE WATERS: A CHITIMACHA RECOLLECTION journeys into sacred places of the Atchafalaya Basin with author Roger Stouff, the son of the last chief of the Chitimacha Indians and a keeper of his family's oral tradition. Stouff shares native stories, beliefs and perspectives about this often overlooked people. 04:00:00	Echoes of a Bitter Crossing: Lewis & Clark In Idaho	APT	(S)	(CC)	N/A	#0H
	ECHOES OF A BITTER CROSSING: LEWIS & CLARK IN IDAHO is a one-hour documentary on the crucial Idahoan segment of Meriwether Lewis and William Clark's 1804-1806 daring expedition from St. Louis to the Pacific coast. Nearly 200 years later, people are still retracing the explorers' journey of discovery, in which the Idaho crossing played a major role. This is where the expedition almost ended in failure - where the nearly starved explorers were revived by the hospitality, care and food of the Nez Perce tribe. In interviews with Lewis and Clark experts, and with members of the Nez Perce tribe from Idaho and neighboring states, the program highlights the difficult passage through Idaho. Among those featured are Gary Moulton, University of Nebraska history professor and editor of the Lewis & Clark journals; and Steven Russell of Iowa State University's Department of Electrical Engineering. One of the inventors of the Global Positioning System, Russell now is using the system to map the exact location of the historic trail through Idaho.

20:00:00	Infinity Hall Live Jonathan Edwards	APTEX	(S)	(CC)	N/A	#111H
	INFINITY HALL LIVE showcases veteran folk singer/songwriter Jonathan Edwards, best known for his 1971 classic "Sunshine." The song - a fierce proclamation of protest and independence set to deceptively upbeat music - became an anthem for numerous young people who opposed the Vietnam War. Today, Edwards seems more comfortable as a laid-back troubadour than a political radical. Often performing on stage barefoot (as he does at Infinity Hall), Edwards demonstrates an expertise with the guitar, mandolin, and accordion to create his own brand of acoustic folk-rock. His heart-felt lyrics and easy-going style continue to please his loyal fans as well as win over new ones. Edwards and his band - Moondi Klein on guitar, Charlie Rose on banjo, Tom Snow on piano and Joe Walsh on mandolin - perform songs primarily from his 2011 album, My Love Will Keep, such as the stunning a cappella rendition of "This Island Earth." But he doesn't disappoint his longtime fans and offers exuberant performances of the classics "Sunshine" and "Shanty," the latter which came to be known as a "Friday song" for many radio stations who would play it every Friday night at 5 to kick off the weekend. "I love playing rooms like this," Edwards says of Infinity Hall. "[It's like] we're playing in a big guitar ...or a Steinway grand piano. It feels like we're inside something like that and the music just vibrates and lives very much in a place like this."

18:00:00	California's Gold Trees As we all know, California has some spectacular scenery and our great variety of trees makes up a large part of it. In this adventure, Huell visits three "big" trees that are a great example of California's Gold. First Huell travels to Santa Barbara to see the Moreton Bay Fig Tree. Given to a little girl as a gift from an Australian seaman, the sapling was planted in 1876. That little sapling is now the largest Moreton Bay Fig in the continental U.S. The tree is 42 feet around its base, 80 feet tall and has a branch spread of 176 feet. Next it's off to Temecula and the former ranch of Erle Stanley Gardner, author of the Perry Mason Novels. On this spot stands the largest California Live Oak in the world. It stands 96 feet tall, with a trunk circumference of 20 feet and a branch spread of 590 feet. It is estimated to be at least 800 years old. This tree is so big that most people think it is a grove of trees. We end the show in Kings Canyon National Park at the General Grant Tree. This tree is the third largest tree in the world. It stands 267 feet tall and is 2000 years old. What makes this tree so special is that it is our nation's official Christmas tree. The tree was officially dedicated on April 28, 1926 by President Calvin Coolidge. Ever since 1926, people from the community and visitors from around the world have trekked to the tree at Christmas time to celebrate our nation and the spirit of the holidays.	KCET		(CC)	N/A	#3013

With Les Falconer III on drums, Vail Johnson on bass, Michael Hicks on keyboards, Kevin So on keyboards and guitar and Jeff Paris on guitar, mandolin and harmonica, the band's full sound and Mo's incomparable blues style engulf the elated audience. Keb' Mo' - formerly known as Kevin Moore - was born in South Los Angeles to parents from the Deep South. Often described as a living link to the seminal Delta blues of the past, he describes his style as a combination of the music he grew up listening to: blues, country, soul and folk. "I'm kind of a hybrid version of all those things thrown together," he says. His multi-faceted career includes portraying one of his blues influences, Robert Johnson, in the 1998 documentary Can't You Hear the Wind Howl? Mo' and his band open the show at Infinity Hall with "Inside Outside," a song from his most recent album, Reflection. Mo' describes the album as the "culmination of all of my influences throughout my career." He also treats the crowd to his slow groove single "The Whole Enchilada," which he describes as a song that "reminds us men that when you are out there courting and falling in love that there's just a few things to keep in mind." Television fans will recognize his tune "I See Love," the theme song from the CBS sitcom Mike & Molly. Plus, the band doesn't disappoint with "Life is Beautiful" from his 2006 release Suitcase, and several other songs from his Grammy award-winning albums. INFINITY HALL LIVE captures the energy of the crowd during Mo's rousing performance. The band closes the show on a high note with the inspirational "A Better Man," a song created for the charity organization "Playing for Change" which inspires peace in the world through music. 20:00:00	Infinity Hall Live Dawes	APTEX	(S)	(CC)	N/A	#112H
	<p>The venue is packed as Los Angeles-based band Dawes takes the stage. Although they could have filled an even larger venue, the intimate atmosphere at Infinity Hall is welcomed by guitarist and lead vocalist Taylor Goldsmith. "I'm pretty sure venues like this are exactly what our music is meant to be played in. No bigger, no smaller. This is exactly perfect," he told the audience after opening with "That Western Skyline" and "The Way You Laugh." With his brother Griffin Goldsmith on drums and vocals, Tay Strathairn on keyboards and vocals, and Wiley Gelber on bass, the foursome's carefully crafted rhythms and tight harmonies have been compared to the Laurel Canyon sound of Crosby, Still and Nash and Neil Young. Taylor commented on Dawes' chemistry both musically and personally. "We're all extremely close," says Taylor. "I don't think this would work if we weren't. A big part of our careers and our time spent playing music is on the road." The band puts an emphasis on its live sound, even turning to traditional methods when recording albums. Strathairn points out that the band records on two-inch tape, laying down an entire track at once rather than recording each part separately. "The performance becomes paramount. We're all in a room, and they say go, and you have to do a whole take of a whole song. We're a live band essentially, and I think that captures us a bit," he says. The group tours extensively and considers its live performances to be its greatest asset. "Music being what it is today, where the value of the record isn't what it was and people could take it for free if they want, the only way to carve out a career for yourself is playing on stage and playing shows and having people come out to the shows. It's always been the best way to spread the word about the band," says Taylor. True to his word, Taylor shows his appreciation for the audience by turning his microphone stand toward the singing crowd as they belt out the chorus line during an inspirational rendition of "When My Time Comes." Dawes closes the show with "Time Spent in Los Angeles," the song they played in June 2011 while performing on The Late Show with David Letterman.</p>

09:00:00	Wyland's Art Studio Baby Seal Pup Art Lesson: Negative Space. The use of negative space is a key element of artistic composition. Negative space is the space around and between the subject of an image. Negative space may be most evident when the space around a subject, and not the subject itself, is used to artistic effect as the "real" subject of an image. In a two-tone, black-and-white image, a subject is normally depicted in black and the space around it is left blank (white), thereby forming a silhouette of the subject. However, reversing the tones so that the space around the subject is printed black and the subject itself is left blank causes the negative space to be apparent as it forms shapes around the subject, called figure-ground reversal. Wyland will demonstrate how utilizing negative space can be an ideal technique for representing animals in the wild.	APTEX		(CC)	N/A	#604H

	Few people realize that less than 10% of all seed varieties commonly grown in 1900 are still with us today. They're extinct-gone forever, because no one took the time to preserve them for future generations. That risk is even greater today thanks to the genetic manipulation of a relatively few remaining seed varieties, combined with the massive buying up of smaller seed companies by overseas giants. The mission of protecting, preserving, and sharing today's precious seed and heirloom varieties has never been more important. Thankfully, one company established to do just that is alive and well, and since 1975 has been thriving in their efforts to preserve horticultural diversity. Seed Savers Exchange has an active international membership of over 13,000 who are helping with the cause. In this episode, Joe makes a trip to Iowa to their scenic 890-acre Heritage Farm to learn more about their process as well as the risks and challenges of safeguarding today's precious seed varieties for future generations.

09:00:00	Wyland's Art Studio Sea Otter	APTEX		(CC)	N/A	#605H
	Art Lesson: Blending Techniques. Many artists are defined by their blending techniques. A blend is the gradual transition from one color to another. Oil paint, because it takes time to dry, allows you to move the wet paint around on the canvas. This makes it easy to do the thing most difficult to do with other types of paint, the blend. All brushes will blend oil paint. Flat brushes are best. Colors are mixed on a palette and applied on the canvas. The brush is dragged back and forth in a crosshatch stroke between two values until a satisfactory transition is made. Value is the lightness or darkness of a hue by adding black or white to a color. Parallel strokes are used to refine the transition of values. A clean brush is used for the dark to middle and another clean brush for the light to middle. Wyland demonstrates how his blending techniques can create a flowing underwater scene.

20:30:00	Music Voyager Heartbeat of Vallenato Host Jacob Edgar's journeys through Colombia reveal the country's amazing geographical, cultural and musical diversity. This time, his travels take him from the ranches and farmlands of Valledupar through the Sierra Nevada de Santa Marta mountain range and on to the Caribbean coast. The small city of Valledupar is the cradle of vallenato, a rustic, folksy and distinctly Colombian music style. There, Edgar meets Fonseca, one of Colombia's biggest stars, who has incorporated the vallenato style into the tropipop sound he made famous. He meets with the Rey de Reyes (King of Kings) of the accordion, attends a wild street party, visits a restaurant that serves unusual wildlife and joins the adorable Los Ninos de Vallenato for a performance in the city's main square. Next, he travels to a small coastal village to meet with a former paramilitary soldier-turned-vallenato-singer, who serenades from a fishing boat in the picturesque harbor. Finally, Edgar ends up in the port city of Barranquilla, where steamy, tropical Afro-Colombian beats dominate the music scene. At a rehearsal for Barranquilla's famous carnival, singer Erika Munoz gives an impromptu performance of her African-influenced sound. Colombian legend Joe Arroyo performs with his full 14-piece band in a commandeered library.	APTEX	(S)	(CC)	N/A	#208H

Will either Nino or Khrystyna, in their new partnerships, be able to replicate their prior success? Two couples in particular stand poised to keep that from happening: Gabriele Goffredo and Anna Matus from Moldova, and Russians Armen Tsaturyan and Svetlana Gudyno, who have long tried to break the hegemony of the Italians. Dance legend Peter Maxwell is the host to this hour featuring DanceSport competition full of glitz and glamour. 23:00:00	Queen of Swing	APTEX	(S)	(CC)	N/A	#0H
<p>QUEEN OF SWING recounts the true story of a Jazz Age trailblazer - 95-year-old entertainer Norma Miller. The engaging biography highlights the life, career and indomitable spirit of the Harlem-born actress, dancer and choreographer known as "The Queen of Swing." Discovered at the age of 12, Miller's show business career has spanned seven decades (and counting). Among her many accomplishments, Miller developed the acrobatic "Lindy Hop" dance, appeared in the Marx Brothers' A Day at the Races (1937), took up stand-up comedy at the prompting of Redd Foxx (Sanford and Son), entertained soldiers in Vietnam, worked with Sammy Davis Jr. in Las Vegas, appeared in Richard Pryor specials, and authored two books about swing culture. She also provided a first-hand account of the Harlem music and dance scene during the 1930s and '1940s in Ken Burns' Jazz (2001). Narrated by actor Bill Cobbs (New Jack City, The Bodyguard, Night at the Museum), QUEEN OF SWING examines Miller's influence in the globalization of America's jazz culture and her role in breaking down racial barriers across the United States and around the world. During her career, Miller performed at the integrated Savoy Ballroom in Harlem, staged the first all-black shows on Miami Beach and at the Flamingo Hotel in Las Vegas, and became one of the first black female stand-up comics in the U.S. Fifteen years in the making, the film also provides a behind-the-scenes glimpse at the larger-than-life personalities of the jazz era, including Miller's friends Duke Ellington, Louis Armstrong and Count Basie.</p>

At Catch, the Thompson Hotel's swanky rooftop restaurant in Playa del Carmen, chef Pedro Abascal teaches how to make a Peruvian-inspired mandarin, carrot, habanero and ginger ceviche with leche de tigre broth. Then, it's off to nearby Axiote with chef Xavier Perez Stone, who shows Rick how to make outrageously good coconut-shrimp ceviche. A delightful ferry ride brings Rick to picturesque Isla Mujeres, where young chef Diego Lopez builds an absolute stunner of a dish, a ceviche of pargo with an herby green "mojito" broth. At Rick's new Chicago restaurant, Lena Brava, he makes a deceptively simple aguachile in a cocktail shaker and teaches how to make a "Bloody Maria" coctel, complete with a spicy salt rim. 	Art Lesson: Light, Shade, and Tone. In art, tone refers to the degree of lightness or darkness of an area. Tone varies from the bright white of a light source through shades of gray to the deepest black shadows. How we perceive the tone of an object depends on its actual surface lightness or darkness, color and texture, the background and lighting. Tone may be used broadly to denote the major planes of an object. Realist artists use 'local tone' to accurately denote subtle changes within the plane. Wyland explores the natural gray shades of a stingray in this illuminating lesson on light, shade, and tone.

	At the height of our nation's industrial revolution over 100 years ago, wealthy businessman Henry Phipps built the Phipps Conservatory as a gift to the city of Pittsburgh. Today Phipps has become a model for public gardens and conservatories around the world for its sustainable building practices, energy conservation and eco friendly methods. In the process they've earned the distinction of being "America's Greenest Garden" and the greenest conservatory in the world. Taking his cue from the chocolate tree featured at the conservatory, Chef Nathan creates a molten chocolate cake that melts in the mouth.

	The Open Wings Broken Strings tour pulls into Infinity Hall with Ed Kowalczyk, Emerson Hart and Leigh Nash, all performing individual acoustic sets. Ed Kowalczyk, most famous as the singer/songwriter of the multi-million album-selling alternative rock band Live, performs an unplugged set of his former group's hit singles such as "I Alone" as well as his newer solo work. He is also responsible for creating the Open Wings Broken Strings Tour. Kowalczyk explained the origin of the tour's name. "At the height of songwriting epiphanies, I seem to always break strings 'cause you get so excited. Bang! The string breaks. But there's this moment where you're really soaring. Open Wings Broken Strings just kind of came out of that." Joining Kowalczyk on the tour is lead singer/songwriter Emerson Hart of another alternative rock band, Tonic. Tonic's first album, Lemon Parade, went multi-platinum with featured hits "Open Your Eyes" and "If You Could Only See," which became radio's most played songs in 1997. In 2007, Emerson went solo and signed with EMI/Manhattan Records, continuing his successful career. His solo acoustic set brings a new intimacy to these well-known songs. Another featured artist of Open Wings Broken Strings is Leigh Nash, lead singer of Sixpence None the Richer. With hit singles like "Kiss Me," "There She Goes," and "Breathe Your Name," Sixpence None the Richer successfully reached platinum status over the past decade, along with picking up a Grammy nomination and several Dove Awards. Now Nash is offering a new perspective on the group's biggest hits as she tours with Open Wings Broken Strings. While each artist performs their own individual acoustic sets, the show features a final performance with all three artists on stage together for a cover of The Band's classic "The Weight." Infinity Hall Live allows for a wonderful experience and by hearing the instruments "stripped down, intimate and acoustic," as Kowalczyk explains it, "you'll hear the strings on the guitar vibrate and buzz."

09:00:00	Wyland's Art Studio California Coast Dolphins Art Lesson: Color contrast. Find out how color contrast adds drama to a painting. There are many ways to depict contrast in painting by placing or arranging different objects, colors, shades, or textures against each other. The human eye loves contrast. Artists may use contrast of hue, which is simply a color that has not been diluted. Contrast of value is the range of lightness versus darkness of certain colors. Occasionally, in oil painting, artists will paint entirely in shades of grey. This is the oil equivalent of a tonal drawing. A strong tonal drawing almost always leads to a strong painting. Artists such as Degas understood the effectiveness of color contrast. Wyland explores contrasting shades to create a vivid painting of dolphins off the California coast.	APTEX		(CC)	N/A	#607H

One-fifth of the world's water and oxygen are produced in the Amazon Rainforest and thousands of species of birds, fish, reptiles, mammals and plants as well as hundreds of thousands of people thrive there. With all the pressures from logging and mining interests, it's also a wonder that this natural world still exists. Joseph sets out on a discovery that includes daybreak bird watching, night safaris in search of caimans, piranha fishing, canoeing the Amazon's tributaries, swimming with pink dolphins and close encounters with the "riverinos" - the people of the river. In the hopes that eco-tourism can slow the flow of the region's demise, Joseph embarks on an adventure that is fast becoming extinct. A visit to the Amazon is a reminder of from whence we've come, what we've lost and the need to protect and preserve what is left. Experiencing it is a thrill.	APTEX	(S)	(CC)	DVI	#904H
