21:00:00	Infinity Hall Live Shelby Lynne	APTEX	(S)	(CC)	N/A	#107H
	<p>INFINITY HALL LIVE continues with a concert by Grammy Award-winning artist Shelby Lynne. Since her debut in 1989, Shelby Lynne has been difficult to define with her music ranging from country, blues, Southern soul, roots rock, Western swing, jazz and adult contemporary pop. When asked to define herself, Lynne replied simply, "I try not to define anything really, myself especially. I like to let the music do the talking." This simple statement speaks volumes to her craft. Shelby Lynne is a musician at heart, bringing her soulful, down-home sound and style to countless individuals. Born in Virginia but raised in rural Alabama, Lynne struggled at the onset of her career. It wasn't until her 2000 album, I Am Shelby Lynne, that she garnered critical acclaim, propelling her into the international spotlight. Since then, she has continued to dazzle audiences across the country, asserting herself as one of country music's greats. Lynne has even made inroads onto the silver screen, appearing in several films, most notably the Johnny Cash biopic, Walk the Line. At Infinity Hall, Lynne takes the stage with accomplished Nashville guitarist John Jackson. "John Jackson is an excellent guitar-playing friend of mine," she says, introducing Jackson, who has played with musicians like Bob Dylan and Lucinda Williams. Although the pair performs only with guitars, vocals, and a harmonica, Lynne's music fills the room and captivates the audience. Her set includes three songs from I Am Shelby Lynne, the album that earned her a Grammy in 2001 for Best New Artist. The show also includes a moving performance of "Pretend," an original song she included on her 2008 Dusty Springfield tribute album, Just A Little Lovin', and "Killin' Kind," which appeared in the film, Bridget Jones's Diary.</p>

	<p>COUNTING FROM INFINITY: YITANG ZHANG AND THE TWIN PRIME CONJECTURE centers on an exciting string of mathematical discoveries. It began in April 2013 when Yitang "Tom" Zhang, a virtually unknown mathematician working as an adjunct professor at the University of New Hampshire, submitted a paper to the Annals of Mathematics. Zhang had made an important breakthrough in Number Theory by solving the Twin Prime Conjecture (pairs of prime numbers that differ by two). His work, Small Gaps Between Primes, was immediately recognized as an important mathematical breakthrough, and Zhang became an instant celebrity - a role for which he was unprepared. The film documents Zhang's quiet perseverance amidst adversity, and his preference for thinking and working in solitude. Zhang's story is interwoven with a history of the Twin Prime Conjecture as told by several mathematicians, many of whom have wrestled with this challenging problem: Daniel Goldston, Kannan Soundararajan, Andrew Granville, Peter Sarnak, Enrico Bombieri and James Maynard. By chronicling the series of rapid developments around the twin prime problem in 2013, and the many individuals who contributed to it, the film offers a glimpse at how mathematics progresses. A snapshot of a great moment in mathematical history, COUNTING FROM INFINITY is at once a biographical portrait of a unique individual and the exciting story of his discovery.</p>

	<p>BARD IN THE BACKCOUNTRY is a behind-the-scenes look at a summer of Montana Shakespeare in the Parks-from first read through to final performance. The documentary chronicles a summer season with a cast of 10 actors as they journey more than 6,500 miles to perform Shakespeare in the rural towns of this vast region. As these young actors travel hundreds of miles every day to set up their stage, don their costumes and perform their roles, they learn about the discipline of a traveling company, the generosity of spirit needed to become part of a team, and the sheer magnitude of the terrain found across Montana. The landscape itself is a primary force in the players' experience as they perform each night in a new location. The tour leads them into the lives of residents in these communities, some as small as 14 people. Many of the people encountered are loyal fans who have seen Shakespeare rendered every summer for 40 years. At the heart of the story is a sense of transformation for the players and for the residents of Montana whose lives have been touched by this beloved company. BARD IN THE BACKCOUNTRY reveals the mutual impact the traveling tour has on these young actors and the people who put in the effort to bring Shakespeare to town. This journey provides a glimpse of the relevance that classic Shakespearean theater still holds for the townspeople across the region.</p>

23:00:00	Real Adam Smith Morality and Markets Morality and Markets, first in the two-part series, The Real Adam Smith: A Personal Exploration by Johan Norberg, takes a close look at Adam Smith, who lived in an 18th century world of sailing ships and horse-drawn carriages. Trade in his day was limited and riddled with corruption, yet Smith imagined and wrote about a lively global trade among ethical businesses that would revolutionize the world's marketplaces. Smith was a moral philosopher, a bold voice of the Scottish Enlightenment and the world's first economist. He recorded his revolutionary ideas in two remarkable books: The Theory of Moral Sentiments and The Wealth of Nations. Those ideas changed the world. Today's markets have grown to a massive scope of international trade that would have been unimaginable even a few decades ago. In this seemingly ruthless competitive environment, where the stakes are high, can ethical and honest businesses still prosper? How does globalization benefit anyone and how are Smith's ideas about markets and morality nearly 240 years ago relevant today? Noted author, economic analyst, and Cato Institute Senior Fellow Johan Norberg takes a closer look at the man who would upend the notion of how societies and economics work, and make way for the modern age. Highlights of Norberg's travels throughout Europe, exploring Smith's life, times and revolutionary ideas, include: Visits to Kirkcaldy, Edinburgh and Glasgow, Scotland, where Smith was born, educated and spent his life teaching, writing and advocating his revolutionary ideas on markets and human morality. To London and Paris, where Smith's ideas influenced other important thinkers and statesmen of his time. At the National Maritime Museum in Greenwich, England, Smith's loathing for the corruption and cronyism that was the East India Company is explored. Morality and Markets explores Adam Smith's 18th century worldview of ethics and honesty in business.	NETA	(S)	(CC)	N/A	#101H

	<p>Art Lesson: Glazing and Color Mixing. Learn how color mixing and glazing create vibrant deep colors in underwater scenes. By using primary colors (red, yellow and blue) while painting this tropical underwater scene Wyland will demonstrate how water dilution levels and various color and paint mixing techniques work together to create proper paint consistency. Complementary colors sit opposite each other on the color wheel. Because they are opposites, they tend to look especially lively when used together. By placing complementary colors together, each color looks more noticeable. Cool color combinations such as blue, green, or purple can suggest the ocean. Warm colors such as red, orange, and yellow can evoke sunlight and warmth. Glazing is a technique used to build up many layers of color in a painting, creating a natural flow between two color tones. One way this can be achieved is by using water to dilute the paint down to a very thin, nearly translucent state. Building up the layers provides more control of the hue and shade of the painting. Let the different coatings dry before applying the next one.</p>

Today, Drawbridge is a ghost town of gray, weathered buildings sinking into the bay, and is part of the San Francisco Bay National Wildlife Refuge. In Part 1, Joseph crisscrosses Armenia to ancient sites where some of the world's oldest artifacts have been discovered. From roadside fruit stands to riverside wine stalls and bustling markets, Joseph is welcomed into local homes to witness traditional artisans at work and join in religious and communal celebrations that inspire, enlighten and reveal the Armenian heart and soul. Resembling fingers in pattern, the famous Finger Lakes region is widely known for their stunning and scenic sights, award-winning wineries, and hosting a fabulous feast of fresh water fish. What better way to represent this rich region than by Julie sharing one of her special Lebanese fish dishes inspired by the Finger Lakes simply called samak harrah. Translating to "spicy fish" samak harrah is one of the most famous fish dishes to hail from Lebanon, straight from Tripoli, a Mediterranean Sea port city situated in the northern part of Lebanon, and with just one bite Julie knows that you will love it too. Julie serves up her samak harrah using whole branzino, a Mediterranean Sea bass, that is blissfully baked away then finished off with a spicy sesame seed, pine nut and cayenne pepper sauce called taratour. She then perfectly pairs her rez b macaroune, a long grain rice and orzo pasta pilaf with her sauteed arugula and onion leeks called sleek b zeit. 	Ideas That Changed The World, second in the two-part series of The Real Adam Smith: A Personal Exploration by Johan Norberg, takes a closer look at the "father of modern economics," who lived in the 18th century among horse-drawn carriages, sailing ships and trade that was greatly limited and riddled with corruption. Yet, Adam Smith envisioned a world of free trade among ethical, honest businesses and recorded his revolutionary ideas in two remarkable books: The Theory of Moral Sentiments and The Wealth of Nations. Those ideas changed the world. Smith was a Scotsman, a moral philosopher, a bold voice of the Scottish Enlightenment and the world's first economist. His ideas about global free markets set the stage for the great 19th century era of free trade and even today's economic expansion. But in today's seemingly ruthless competitive environment, where the stakes are high and winning is the name of the game, can ethical and honest businesses still prosper? How does globalization benefit anyone? Noted author, economic analyst, and Cato Institute Senior Fellow Johan Norberg talks with some of the most distinguished Adam Smith scholars, as well as leaders of eBay and Whole Foods to discover how Smith's ideas continue to be relevant and drive the world's economy today. Aboard the Maersk Mc-Kinney Moller, the largest container ship in the world, Norberg witnesses the incredible scale of world trade first hand. Norberg visits Toulouse, France for the final assembly of a new Airbus A380 illustrating Smith's insights on the division of labor's ability to generate wealth. At the University of Chicago, Chinese students study Smith's ideas to better understand how China became capitalist, and in Washington, DC, Norberg shows what happens as cronyism triumphs over the free market, a condition that troubled Smith in his day. Ideas That Changed The World examines 21st century businesses benefiting from Adam Smith's 18th century ideas.

	<p>The hierarchy seems firmly established in the standings of the regular legs of the GrandSlam Standard Series. Germans Simone Segatori and Annette Sudol won every time they entered a competition, from the first leg in Helsinki, Finland, to conquering the biggest field of the season in Stuttgart, Germany. Russians Dmitry Zharkov and Olga Kulikova are destined to be the perennial runners-up, even if they claimed their second places by narrowing the point margins separating them from the winners. The one time the Germans didn't dance, in the Moscow leg, Dmitry and Olga won the final with their highest total ever for the five Standard dances. Lithuanians Evaldas Sodeika and Ieva Zukauskaite are similarly cast to be the other runners-up of the Series, coming in third more often than not. Fortunately for the GrandSlam Series Final, more than a few experts predict that the established order could get reversed. If the runners-up should plan an overthrow, there is no better time to do that than in the "Showdown in Shanghai." Reserved for the top 12 couples in the GrandSlam rankings, and with points accrued in four of the regular legs, the Final is the most important competition of all.</p>

Travelling from the tropical swamps of Florida to the rocky coasts of Newfoundland to the shores of Martha's Vineyard, the men spend more than two years scouting locations, talking to park rangers, speaking at town meetings and battling bureaucracy in their effort to gather support for the project. 09:00:00	Wyland's Art Studio Queen Angelfish	APTEX		(CC)	N/A	#609H
	Art Lesson: Form. Form is an element of art. Yet there are several ways to consider the meaning of form. At its most basic, a form is a three-dimensional geometrical figure, such as a sphere, cube, cylinder or cone, as opposed to a shape, which is two-dimensional, or flat. In a broader sense, form, in art, means the whole of a piece's visible elements and the way those elements are united. In this context, form allows viewers to mentally capture the work and understand it. Wyland demonstrates the two interpretations of form through his depiction of a bottlenose dolphin against a water element. He uses Payne's gray with a half inch brush to create the dolphin form with a 3-inch brush to block in the blue water. Highlights and shadows are added to enhance the three-dimensional form.

	Three-year-old Monique Corzilius counts to 10, pulling petals from a daisy. A voice from mission control then counts down as the camera zooms into Monique's dark pupil. An atomic blast and ensuing mushroom cloud consumes the TV screen as President Lyndon Johnson's voice proclaims "We must either love each other, or we must die." This political ad, "Peace Little Girl," aired only once or twice during the 1964 presidential campaign between Lyndon Johnson and Barry Goldwater, but it ushered in a new era of the television attack ad. The 1964 campaign also reshaped the American political landscape in other significant ways. Johnson's "Great Society" and civil rights agendas pushed southern states toward the Republican Party and brought the northeast in line with the Democrats, creating America's contemporary geopolitical map of red and blue states. Barry Goldwater's rift with "the liberal Republican establishment," or "Rockefeller Republicans," served as the basis for his landslide defeat in the general election, but also for the rise of an out-spoken and blossoming conservative movement. Barry Goldwater's presidential campaign also spawned the political career of Ronald Reagan, and inspired future conservative offshoots like social and Christian conservatives as well as the Tea Party. BOMBS AWAY: LBJ, GOLDWATER AND THE 1964 CAMPAIGN THAT CHANGED IT ALL includes interviews with historians and participants in the campaign, including Richard and Doris Kearns Goodwin, Barry Goldwater, Jr., Victor Gold, Joseph Califano, Larry J. Sabato, Professor Robert Mann and Monique Corzilius.

04:00:00	Bombs Away: LBJ, Goldwater and the 1964 Campaign That Changed It All Three-year-old Monique Corzilius counts to 10, pulling petals from a daisy. A voice from mission control then counts down as the camera zooms into Monique's dark pupil. An atomic blast and ensuing mushroom cloud consumes the TV screen as President Lyndon Johnson's voice proclaims "We must either love each other, or we must die." This political ad, "Peace Little Girl," aired only once or twice during the 1964 presidential campaign between Lyndon Johnson and Barry Goldwater, but it ushered in a new era of the television attack ad. The 1964 campaign also reshaped the American political landscape in other significant ways. Johnson's "Great Society" and civil rights agendas pushed southern states toward the Republican Party and brought the northeast in line with the Democrats, creating America's contemporary geopolitical map of red and blue states. Barry Goldwater's rift with "the liberal Republican establishment," or "Rockefeller Republicans," served as the basis for his landslide defeat in the general election, but also for the rise of an out-spoken and blossoming conservative movement. Barry Goldwater's presidential campaign also spawned the political career of Ronald Reagan, and inspired future conservative offshoots like social and Christian conservatives as well as the Tea Party. BOMBS AWAY: LBJ, GOLDWATER AND THE 1964 CAMPAIGN THAT CHANGED IT ALL includes interviews with historians and participants in the campaign, including Richard and Doris Kearns Goodwin, Barry Goldwater, Jr., Victor Gold, Joseph Califano, Larry J. Sabato, Professor Robert Mann and Monique Corzilius.	APTEX	(S)	(CC)	N/A	#0H

	Deliria thinks she's found a way to own the entire Earth - by taking a time machine back to when there were no people on the planet, and being the first to claim it. Zeeter accidentally gets whisked along on the time trip, which takes them back to 250 million years ago when Earth's continents were combined as one. Going forward in time to the present, Deliria's clunky time machine continually breaks down. In between encounters with dinosaurs and an Ice Age, Zeeter gets to observe how today's continents were formed because of Plate Tectonics. Zeeter is excited about climbing in The Great Climb, an annual mountain climbing event in her home town, Zazu Falls. It's a two-person team event and Bula's to be her partner. But when Bula is injured, Multo volunteers to be her partner. Zeeter is skeptical of Multo's climbing abilities; however, Multo's knowledge of mountains is what helps them climb close to the top. Unfortunately, the mountain, who prefers to be called the "Grand Zeeterondack," prevents the two from reaching its summit. After asking some questions, Zeeter and Multo learn that the mountain is worried that once someone reaches the top, no one will climb it any more. In the end, the two ZPers must convince the mountain that it is like an old friend and that the climbers will never abandon it. Once they do this, the mountain allows them to climb the rest of the way to the top.

	<p>It has been a tumultuous year in Latin dancing as the five GrandSlam Series competitions reflected perfectly. When the series began with the first leg in Helsinki, everybody was eager to see the three "new" couples formed after two high-profile partnerships were dissolved at the end of the previous year. Even the skeptics seemed to like what they saw. By winning Helsinki with his new partner Vera Bondareva, Nino Langella seemed all set to continue where he had left off five months earlier. It came all the more as a surprise when the two Italian dancers didn't make it to Wuhan, China, and later when Nino announced that he would leave the GrandSlam Series. But by then, three couples had started to position themselves as the heirs apparent to his dominance. Moldovans Gabriele Goffredo and Anna Matus had two back-to-back victories in Asia, but Armen Tsururyan and Svetlana Gudyno of Russia came back fighting and took the next two legs in Moscow and Stuttgart. Nino's former partner Khrystyna Moshenska and Marius-Andrei Balan were runners-up twice but then surprisingly failed to qualify for the season-ending GrandSlam Final. The stage was set for the "Showdown in Shanghai" to determine which couple would succeed the long-time champions from Italy.</p>

09:00:00	Wyland's Art Studio Lion King	APTEx		(CC)	N/A	#610H
	Art Lesson: Chiaroscuro modeling - Light and Shadow. The term chiaroscuro refers to a strong juxtaposition of light and shade to enhance the dramatic aspects of a painting. Even the Italian definition, from chiaro "clear, light" and oscuro "obscure, dark" connote the unique treatment of light and dark parts in a work of art. This technique was pioneered and used to heightened effect by Leonardo da Vinci, Caravaggio, and Rembrandt. Wyland uses the interplay of shading to establish the power and nobility of the king of the beasts. Identifying the light source is the single most important aspect of chiaroscuro painting. Once lines have been established, mid-tones are added. Keeping the light source in mind, paint strong shadows. Highlights that have a bit of color from the light source may be added. If the light source is cool, highlights may have blues and cool colors. If the source is warm, yellows, oranges or reds may be added.

21:00:00	Infinity Hall Live Buckwheat Zydeco	APTEX	(S)	(CC)	N/A	#110H
	Emmy and Grammy Award-winning artist Buckwheat Zydeco and his band bring the Creole dance party to Infinity Hall. Born Stanley Joseph Dural, Jr. in 1947, Zydeco was raised in a large, musical family in Lafayette, Louisiana. "Growing up, the thing that made me happy was music," said Zydeco. "When you're listening to music or you're playing music, you got no business being sad." Zydeco's father played the accordion, but the young man originally refused to take up the instrument, dismissing the traditional zydeco music of his father's generation. He preferred playing the organ and listening to R&B. That changed in 1976, when he joined the "King of Zydeco" Clifton Chenier as a keyboard player. After learning to play the accordion, Zydeco formed his own band in 1979. For over three decades, Buckwheat Zydeco has been delighting audiences with his contemporary style of creole music. "It's based on the rhythm and blues. Whether you're playing an up-tempo song or a slow song, they always have that energy and that certain beat that go together with the music. It's always played with the washboard," says Zydeco, who plays the accordion, organ, and sings. Buckwheat Zydeco is an accomplished artist. He won an Emmy for his music in the television movie Pistol Pete: The Life And Times Of Pete Maravich and a Grammy for Best Zydeco Music Album in 2010 for Lay Your Burden Down. Zydeco also played at the closing ceremonies during the 1996 Summer Olympics in Atlanta, Georgia, and performed at both inaugurations for President William Jefferson Clinton. His infectious music appeals to people of all ages. In 2010, Zydeco released his second children's album, Bayou Boogie. Zydeco keeps Louisiana tradition alive with his infectious music, encouraging the audience to boogie to the Buckwheat beat.

The documentary SOL is a moving tribute to Solomon, who was found dead in the Igloolik police station in 2012 at the age of 26. The locals suspect murder but the police suggest suicide. Solomon's family and friends are still waiting for an official answer regarding the circumstances of his death. His upbringing, however, was unusual. 09:00:00	Wyland's Art Studio Seahorse Art Lesson: Harmony. Harmony can be defined as a pleasing arrangement of parts, whether it is music, poetry, color, or even an ice cream sundae. Harmony, in art, is an image that is pleasing to the eye, creates an inner sense of order and a balance in the visual experience. When an artwork is not harmonious, it may be considered boring or chaotic. A well-crafted painting is a unified whole that encompasses all the other elements and principles of art and design. Size relationships are defined by proportion and scale. Proportion refers to how the elements within an object relate to the object as a whole. Scale relates to the size of an object when compared with the size of the space in which it is located. As with Wyland's depiction of a Seahorse, unity assures a sense of order. There is a consistency of size and shape, a harmony of color and pattern. Where too much unity can be boring; too much variety can cause a restless feeling. Juggling the elements and principles to get just the right mix is a key to good harmony and unity in a painting.	APTEX		(CC)	N/A	#611H

21:00:00	Infinity Hall Live Jonathan Edwards	APTEX	(S)	(CC)	N/A	#111H
	<p>INFINITY HALL LIVE showcases veteran folk singer/songwriter Jonathan Edwards, best known for his 1971 classic "Sunshine." The song - a fierce proclamation of protest and independence set to deceptively upbeat music - became an anthem for numerous young people who opposed the Vietnam War. Today, Edwards seems more comfortable as a laid-back troubadour than a political radical. Often performing on stage barefoot (as he does at Infinity Hall), Edwards demonstrates an expertise with the guitar, mandolin, and accordion to create his own brand of acoustic folk-rock. His heart-felt lyrics and easy-going style continue to please his loyal fans as well as win over new ones. Edwards and his band - Moondi Klein on guitar, Charlie Rose on banjo, Tom Snow on piano and Joe Walsh on mandolin - perform songs primarily from his 2011 album, My Love Will Keep, such as the stunning a cappella rendition of "This Island Earth." But he doesn't disappoint his longtime fans and offers exuberant performances of the classics "Sunshine" and "Shanty," the latter which came to be known as a "Friday song" for many radio stations who would play it every Friday night at 5 to kick off the weekend. "I love playing rooms like this," Edwards says of Infinity Hall. "[It's like] we're playing in a big guitar ...or a Steinway grand piano. It feels like we're inside something like that and the music just vibrates and lives very much in a place like this."</p>

Penelope: The Documentary tells the story of how residents, some with severe dementia or wheel-chair bound, collaborate with playwright Anne Basting and Sojourn Theater to create "Finding Penelope", a play reinterpreting Homer's Odyssey to tell it from Penelope's point of view. As we learned, some heroes stay at home! The film is a beautiful exploration of how the residents, actors and students collaborated, from reading the Odyssey together to learning Greek and eventually putting on a professional play featuring scenes all over the nursing home and an audience of over 400 moving through the space. Whether you want to be entertained, you work with older adults, you're an artist or you are looking for your own adventure - you'll love Penelope.</p>

02:00:00	Infinity Hall Live Jonathan Edwards INFINITY HALL LIVE showcases veteran folk singer/songwriter Jonathan Edwards, best known for his 1971 classic "Sunshine." The song - a fierce proclamation of protest and independence set to deceptively upbeat music - became an anthem for numerous young people who opposed the Vietnam War. Today, Edwards seems more comfortable as a laid-back troubadour than a political radical. Often performing on stage barefoot (as he does at Infinity Hall), Edwards demonstrates an expertise with the guitar, mandolin, and accordion to create his own brand of acoustic folk-rock. His heart-felt lyrics and easy-going style continue to please his loyal fans as well as win over new ones. Edwards and his band - Moondi Klein on guitar, Charlie Rose on banjo, Tom Snow on piano and Joe Walsh on mandolin - perform songs primarily from his 2011 album, My Love Will Keep, such as the stunning a cappella rendition of "This Island Earth." But he doesn't disappoint his longtime fans and offers exuberant performances of the classics "Sunshine" and "Shanty," the latter which came to be known as a "Friday song" for many radio stations who would play it every Friday night at 5 to kick off the weekend. "I love playing rooms like this," Edwards says of Infinity Hall. "[It's like] we're playing in a big guitar ...or a Steinway grand piano. It feels like we're inside something like that and the music just vibrates and lives very much in a place like this."	APTEX	(S)	(CC)	N/A	#111H
